

# Ohio Electric Drive Initiative - March 10, 2010

**March 10, 2010 @ 12:00 pm (ET)**  
Center for Automotive Research  
The Ohio State University  
930 Kinnear Road  
Columbus, OH 43212

## ATTEND TO SHOW OHIO'S SUPPORT FOR ELECTRIC VEHICLES

On March 10<sup>th</sup>, Plug Smart has coordinated a meeting with Nissan president Mark Perry to demonstrate state wide EV readiness and efforts to bring the Leaf, Nissan's all electric vehicle to Ohio. Nissan has formed more than a dozen partnerships throughout the United States. With your support we can make Ohio next on the list!

For this meeting, we are inviting all of Ohio's utilities, municipalities, and government agencies, state officials and representatives, PUCO, and local universities that have an interest in Electric Transportation and a desire to make Ohio a Plug-In ready state. Our goal is to bring together interested parties who realize the benefits and long-term sustainability of Electric Transportation. We all must join together on March 10th to show support for the widespread adoption of electric vehicles in Ohio and, ultimately, the economic development of the state.

**PLEASE RSVP BY MARCH 8TH**
